This is an important message from the Town of Arlington regarding COVID-19 vaccination efforts.

Good evening, this is Christine Bongiorno, Arlington's Health and Human Services Director calling you to ask for your help to get our older residents vaccinated.

If you or someone you know is over 75 and needs a vaccine appointment, please call the Council on Aging at 781-316-3400. The Council on Aging can help with an appointment at a local clinic, or send a vaccinator into the home to vaccinate someone unable to leave their home.

I appreciate so many who have already gotten vaccinated, but we still have a ways to go, especially with our residents age 75 and over. Our rate of vaccination in this age group is lagging and it is important that we call upon our community to help these residents access vaccine because this group is particularly vulnerable to the impacts of COVID-19.

We've been through a lot as a community and with your continued assistance with our vaccination efforts and following all safety protocols, we can get through this pandemic a stronger community. For regular updates or general vaccine information please visit: [arlingtonma.gov](http://arlingtonma.gov)

Stay safe and be well. Thank you
